Please use this version for making further edits. This is the version I sent to JB yesterday and I've already made a few changes, including the total costs. I think Janet is right and the numbers are higher. CC, please double check w/Emmanuelle on the dollar figures for the project. Let's please keep the paper to no more than one page. The overall tone of the villages paper should be that there's funding in place for a long term solution, the villages are not tribally-owned and we've made numerous attempts to work w/the villages and tribe to hammer out an AOC. Thanks all!

Per your request, attached is a draft briefing paper on the villages. This paper has not been fully reviewed by our team and management and thus is not final. At this time, our Hopi Cultural Center paper is still very rough and we're not prepared to share it. Additionally, we need to fully brief our management on possibly doing a penalty for the HCC. For tomorrow's call, we'd like to focus on the villages work and we can revisit the HCC enforcement work in FY19.
